

## **Building and Safety Department**

### **Plan Submittals**

The City of Redlands is mandated by Health and Safety Code Section 17958 to adopt the most recent editions of the California Building Codes that have been approved by the California Building Standards Commission.

July 2016, the California Building Standards Commission adopted the 2016 California Building Standards Code. The Code will be applicable to all occupancies in the State of California beginning January 1, 2017.

All plan check applications submitted by the end of the work day, December 20, 2016, will be reviewed using the 2013 California Building Standards Code.

All plan check applications submitted after January 1, 2017 will be reviewed using the 2016 California Building Standards Code.
