There was no reportable action taken during the closed session.

UNFINISHED BUSINESS

Police Department Relocation - Community Development Director Orci reported the Safety Hall ad-hoc committee has been meeting weekly to address the various issues related to the Safety Hall facility, including evaluating numerous short (interim) and long term options. With the exception of dispatch, all Safety Hall personnel have been temporarily relocated to various

police facilities located throughout the City. This relocation has resulted in operational efficiency issues. There is an immediate need to create an interim solution in order to create a holding (jail) facility as well as one central patrol police area. The ad-hoc committee is maintaining a list of available properties for sale or lease within the City and will expand as further properties are identified. This does not address the immediate need for an interim facility; however, due to the City's financial limitations, the ad-hoc committee found that it would be a financial burden to purchase or lease property and improve it for the short term. The ad-hoc committee identified an option that would not involve purchase or leasing property; rather, it would involve the use of Fire Station No. 4 located at the Corporate Yard, for the patrol, holding facilities and related administrative functions. The Fire Department would occupy a temporary trailer that would be located immediately adjacent to the fire apparatus at the Corporate Yard. The public would be able to utilize the existing entry area for both the fire and police functions. Funding would be required for the acquisition of the trailer as well as a holding facility. Funding would come from the Public Facilities Fund for Police Facilities. Police Chief Bueermann explained the operational issues. Fire Chief Frazier expressed his willingness to relocate Fire Station No. 4 to a temporary trailer. Staff would like to bring this matter, with more specific information specifically funding, to the City Council at a regularly scheduled meeting. By consensus, Councilmembers were supportive of this proposal and asked for a detailed plan which would also include the Quality of Life Department's involvement at the Corporate Yard.
