**NEW BUSINESS**

Joint Defense Agreement - FERC Proceedings - Citing a possible conflict of interest on this matter, Mayor Gilbreath left the City Council Chambers, and Mayor Pro Tem George conducted the meeting. City Attorney McHugh
reported that a number of affected water agencies in the region have been meeting regularly over the past three years to develop a strategy with regard to Southern California Edison's request that its hydro-electric projects be relicensed by the Federal Energy Regulatory Commission. Edison's relicensing applications significantly and adversely affect the City's water rights and the region's water agencies are strongly defending the position that none of their water rights should be lost on the Santa Ana River, Mill Creek, or Lytle Creek as a result of these proceedings. At this time, the water companies think it would be appropriate to develop a joint legal strategy with a joint defense agreement. A draft agreement has been prepared by special counsel to the San Bernardino Valley Municipal Water District and has been reviewed by our City Attorney. Councilmember George moved to approve the joint defense agreement and authorize the Mayor and City Clerk to execute the agreement on behalf of the City. Motion seconded by Councilmember Freedman and carried by AYE votes of all present, with Councilmember Gilbreath abstaining.
