Before they can proceed for issuance of a building permit, a Memorandum of Understanding with the San Bernardino County Flood Control District must be approved by both the City and the County. Subsequent to this Memorandum of Understanding, it will be necessary for the City to enter into a common use

UNFINISHED BUSINESS

Funds - Change Order - Mission Gables Bowl House Project - Phase I of the Mission Gables Bowl House project is the construction of the new basement to house restrooms and storage space for the Redlands Bowl, and to seismically and structurally upgrade the existing structure in anticipation of Phase II work that will complete the interior and street frontage landscaping work on the house. Public Works Director Mutter reported three major items of expense have arisen on the Mission Gables Bowl House project that were unforeseen and not anticipated in the original contract: the connection to Southern California Edison power, exterior renovation work to provide weather-proofing, and termite eradication. Staff recommended additional funds from the Park Development Fund be appropriated and these changes orders approved for this project. A discussion ensued regarding funding for the Sports Park needs with
Public Works Director Mutter assuring Councilmembers the funds would be recouped and expenditure of these funds at this time should not impact the Sports Park. Speaking on behalf of the Redlands Community Music Association, Marsha Gebara expressed appreciation to the City Council, staff and the Police and Fire Departments for their support for the Redlands Bowl during the 82-year partnership. She urged the City Council to approve completion of the re-adaptive re-use restoration of this old house and assured them the Redlands Community Music Association was committed to complete the interior and street frontage landscaping work in Phase II. Steve Guggisberg spoke against this appropriation from park funds as he felt they were critically needed for sports. Emery Milroy presented his suggestions as to how the City could have saved money on this project. Following discussion, Councilmember Gilbreath moved to approve an appropriation of additional funds in the amount of $170,000.00 from the Park Development fund and to authorize staff to approve a change order as described for the Mission Gables Bowl House project. Community Development Director Shaw reviewed the request and the recommendations. A total of 117 allocations are available for this quarter, and a project is eligible for a basic allocation of up to 35 units. LAND USE AND PUBLIC HEARINGS

Ordinance No. 2618 - Zone Change No. 415 - Public notice was advertised for this time and place to consider a Draft Mitigated Negative Declaration as well as a public hearing for Ordinance No. 2618, an ordinance of the City of Redlands amending Title 18 of the Redlands Municipal Code revising the City's Land Use Zoning Map and effecting Zone Change No. 415, a change of zone from C-4 (Highway Commercial) District to R-R-A (Rural Residential Animals) District for .43 acres of single family residential property located at 31588 Alta Vista Drive, approximately 200 feet southwest of Outer Highway 10 (Diane Short, applicant). Mayor Peppler declared the meeting open as a public hearing on this matter. Community Development Director Shaw explained the property has been used for residential purposes since 1978 when the residence was constructed and under current zoning remains a legal, non-conforming use. The applicant is proposing the zone change in order to achieve conforming status which will allow the property owner to make improvements to the
property and obtain a conventional residential mortgage loan rather than having
to apply for a commercial loan. Based on current land use, the General Plan
designation and surrounding zoning, the requested zone change would create
conformance between City designations and the current use on-site. There were
no questions or comments from the audience and the public hearing was
declared closed.

Negative Declaration - Councilmember Harrison moved to approve the
Environmental Review Committee’s negative declaration for Zone Change
No. 415 based on the finding that the project will not have a significant
effect on the environment, determining this project will not individually or
cumulatively have an adverse impact on wildlife resources as defined in
Section 711.2 of the California Fish and Game Code and directed staff to file and post a Notice of Determination in accordance with the City’s
guidelines. Motion seconded by Councilmember Gilbreath and carried
unanimously.

Ordinance No. 2618 - Ordinance No. 2618 was read by title only by City
Clerk Poyzer, and on motion of Councilmember Harrison, seconded by
Councilmember Gilbreath, further reading of the ordinance text was
unanimously waived, and Ordinance No. 2618 was introduced with
unanimous Council approval and laid over under the rules with adoption
scheduled for September 20, 2005.

Resolution No. 6434 - Sign Criteria - Specific Plan No. 25 - Public hearing was
advertised for this time and place to consider Resolution No. 6434, Specific
Plan No. 25 (Amendment No. 11), an amendment to the sign criteria for
Specific Plan No. 25, Section 3.C.8.a and subsections 2, 3 and 4 which would
increase the allowable sign area on building frontages, change the way sign area
is calculated and allow two main identification signs per building frontage.

Mayor Peppler declared the meeting open as a public hearing. Community
Development Director Shaw explained the applicant proposed three changes to
the current sign criteria for Specific Plan No. 25 which included increasing the
allowable sign area on building frontages, changes to the way sign area can be
calculated and a request to allow multiple signs on a single frontage.

Discussions between both the applicant and planning staff were undertaken to
address concerns expressed by both parties and to reach a consensus on
proposed changes. Agreement was reached and a beneficial proposal was
presented to the Planning Commission that was supported by both sides.
Community Development Director Shaw thanked the application for working
with staff. There were no questions or comments from the audience and the
public hearing was declared closed.

Environmental Review - Councilmember Gilbreath moved to find that the
City Council's adoption of Resolution No. 6434, approving an amendment
to Specific Plan No. 25, is exempt from review under the California
Environmental Quality Act because, pursuant to State Guideline
Section 15061, this City Council has determined that it can be seen with
certainty that there is no possibility that the adoption of Resolution No. 6434

September 6, 2005

Buckeyes Limited Partnership, Applicant - Public notice was advertised for this time and place to consider a Draft Mitigated Negative Declaration as well as a public hearing for a Socio-Economic Analysis and Cost/Benefit Study and public hearings for consideration of Ordinance No. 2620, Zone Change No. 412, a change of zone from R-S (Suburban Residential) District to a proposed zoning of R-2 (Multiple Family Residential) District for property with an area of 2.6 acres located on the south side of Highland Avenue, west side of Ford Street and immediately east of the I-10 Freeway; consideration of Conditional Use Permit No. 865, a conditional use permit for the development of a 24-unit condominium development on 2.6 acres located on the south side of Highland Avenue, west side of Ford Street and immediately east of the I-10 Freeway in the R-S (Suburban Residential) District, proposed R-2 (Multiple Family) Residential District; consideration of Tentative Tract Map No. 17691, a Tentative Tract Map for a 24-unit condominium development on 2.6 acres located on the south side of Highland Avenue, west side of Ford Street, and immediately east of the I-10 Freeway in the R-S (Suburban Residential) District, proposed R-2 (Multiple Family Residential) District; and consideration of Variance No. 694, a variance from Section 18.168.220 of the Municipal Code to allow a five-foot setback in lieu of the required 25-foot setback for a proposed 24-unit condominium development to be located on the south side of Highland Avenue, west of Ford Street and immediately east of the I-10 Freeway in the R-S (Suburban Residential) District, proposed R-2 (Multiple Family Residential) District. Community Development Director Shaw reported that prior to this current application, the applicant had proposed a 37-unit apartment complex at this same location. That project came before the Planning Commission in April of this year. At that meeting, several people owning property near the project site spoke out against the project. Reasons provided for opposing the project included the lowering of property values, lack of parking and the potential for increased crime, traffic and noise. The Planning Commission generally felt that the 37-unit apartment complex was not in keeping with the rest of the neighborhood and was too dense. The applicant
was directed to propose a different type of project, possibly condominiums. The applicant subsequently withdrew the apartment application and filed an application for a 24-unit condominium development. In the weeks leading up to the Planning Commission meeting of July 26, 2005, the applicant sought the input of individual Planning Commissioners and met with nearby property owners, holding a meeting at the neighboring church on July 14, 2005. At the Planning Commission meeting on July 26, 2005, a number of individuals spoke in favor or against the project; however, there were significantly less people opposed to the project than at the hearing for the previously proposed 37 unit apartment complex. Mayor Peppler declared the meeting open as a public hearing. Community Development Director Shaw reviewed the proposed project in detail. Marwan Al Abbasi, the applicant, addressed the City Council at length explaining how he responded to the neighbors' concerns by revising his original application. His engineer was available to answer technical questions. Mrs. Al Abbasi also addressed the City Council. One neighbor, Howard W. Miller, III, thought the project was not such a bad idea. Opposed to the project and zone change were: Hope Center Church Pastor B. J. Wilmoth, James Green, Robert and Lvnso Stibring, John Walker, Dean Meech, Bill Loughoun, David Raley, James Oana, Pam Sibley and Vicky Watson. An additional eight neighbors also spoke against the project. City Clerk Poyzer reported two letters in opposition to the zone change were received. The public hearing was closed at 9:00 P.M. Councilmember Gilbreath stated she was supportive of the project. Councilmember Harrison expressed concerns about compatibility with the existing neighborhood and lighting in the parking lot and suggested continuing the matter for two weeks so that he could look into something of lower density. Councilmember George supported the position of the neighborhood. Indicating her support of the project, Councilmember Peppler made the following motions.

Mitigated Negative Declaration - Councilmember Peppler moved to approve the Environmental Review Committee’s mitigated negative declaration for Zone Change No. 412, Variance No. 694, Conditional Use Permit No. 865 and Tentative Tract Map No. 17691 based on the finding that the project will not have a significant effect on the environment, determining this project will not individually or cumulatively have an adverse impact on wildlife resources as defined in Section 711.2 of the California Fish and Game Code and directed staff to file and post a Notice of Determination in accordance with the City’s guidelines. Motion seconded by Councilmember Gil and carried with Councilmembers George and Harrison voting NO.

Motion seconded by Councilmember Gil and carried with Councilmembers George and Harrison voting NO.
Ordinance No. 2620 - Zone Change No. 412 - Ordinance No. 2620 an ordinance of the City of Redlands amending Title 18 of the Redlands Municipal Code revising the City's Land Use Zoning Map and effecting Zone Change No. 412, was read by title only by City Clerk Poyzer, and on motion of Councilmember Peppler, seconded by Councilmember Gil, further reading of the ordinance text was waived, and Ordinance No. 2620 was introduced and laid over under the rules with adoption scheduled for September 20, 2005, with Councilmembers George and Harrison voting NO.

Variance No. 694 - Councilmember Peppler moved to approve Variance No. 694 with the condition that the variance only become effective on the effective date or Ordinance No. 2620, based upon the findings and subject to the conditions of approval contained in the staff report. NEW BUSINESS

Ordinance No. 2617 - Parades and Public Assemblies - City Attorney McHugh presented Ordinance No. 2617, an ordinance of the City of Redlands amending Chapter 12.40 of the Redlands Municipal Code relating to parades and public assemblies. Generally, the ordinance confirms that animals are prohibited, except for service animals and animals that are permitted as part of the event. Ordinance No. 2617 was read by title only by City Clerk Poyzer, and on motion of Councilmember Peppler, seconded by Councilmember Gil, further reading of the ordinance text was unanimously waived, and Ordinance No. 2617 was introduced with unanimous Council approval and laid over under the rules with adoption scheduled for September 20, 2005.

Airport Planning Studies Advisory Committee - Municipal Utilities Director Phelps stated the Airport Master Plan needs to be updated every five to ten years. The existing Airport Master Plan was last updated 12 years ago. In view of this, the Federal Aviation Administration was able to find remaining funds in their Airport Improvement Program for Fiscal Year 2005 to fund the update of
the Airport Master Plan. Staff and a professional airport planning consultant who will be developing the Airport Master Plan, and staff who will be developing the Airport Land Use Compatibility Plan would clearly benefit from being able to seek the advice of a City Council Advisory Committee during the early stages of the preparation of both of these plans. The formation of a Council Committee would also provide an opportunity for the Council Committee to be educated on the issues and to be directly involved in the process to facilitate development of policy by the City Council. Councilmember Peppler moved to establish an advisory committee for a limited duration and purpose to advise City staff on planning studies associated with the Redlands Municipal Airport and to appoint Councilmember George and Councilmember Gilbreath to serve on the committee and that the committee terminate seven months after its formation. Motion seconded by Councilmember Gil and carried unanimously.
