COMMUNICATIONS:

Standing Committees – Mayor Aguilar introduced the idea of disestablishing two standing committees to the City Council due to lack of utilization. On motion of Mayor Pro Tem Foster, seconded by Councilmember Gardner, the City Council unanimously agreed to abolish the Economic Development Committee and the Youth and Family Services Committee.

Museum Maintenance – Mayor Pro Tem Foster introduced a request from the Redlands Historical Museum Association (RHMA) for City assistance with certain costs associated with the establishment of a Historical Museum within the City of Redlands. Representing the RHMA, Nelda Stuck and Steve Stockton endorsed the request and assured the City Council the assistance would be for grounds keeping and utilities only. Initial operating costs and capital improvements will be paid for by the RHMA. On motions of Mayor Pro Tem Foster, seconded by Councilmember Gardner, the City Council unanimously approved payment for costs of landscape maintenance and the provision of utility services for the Redlands Historical Museum Association’s proposed historical museum, based upon the City Council’s finding that the payment of such costs serves a valid public purpose because such payments will facilitate the opening and initial operation of a museum that will provide cultural enrichment to the Redlands community and contribute to the City’s goals of enhancing tourism and economic development for the interim period until the museum is donated to the City, at which time the City will operate the historical museum and fund its costs; and directed staff to identify a source of general funds to be used to reimburse the City’s enterprise funds for the costs of provision of water, sewer and solid waste utilities to the museum for the interim period until it is owned by the City and continuing thereafter.
Healthy Redlands – Councilmember Gilbreath reviewed the success of the summer camp and highlighted upcoming events during Fire Prevention Week and the holiday season. She provided an overview of plans to work with Bike Alliance to develop bicycle use and maintenance workshops for Redlands parents and youth. Plans are also in the works to develop walking programs to better utilize the community trails systems.

Grove Sale Proceeds – As the subcommittee appointed to address this subject, Mayor Pro Tem Foster and Councilmember Harrison provided an overview of the decision-making process which derived their recommended prioritization of public benefit fund expenditures. Prior to discussion of the prioritization plan by the City Council, Mayor Pro Tem Foster introduced a motion to specifically address the restoration of the Barton School House in Heritage Park. On motion of Mayor Pro Tem Foster, seconded by Councilmember Gardner, the City Council unanimously approved funding costs associated with the restoration of the Grove School’s historic Barton School House with the use of the proceeds from the sale of the Palmetto Groves; previously City Council-approved, but not yet expended park funds; and any future City Council-approved funding sources; that based upon the City Council’s finding that such restoration funding serves a valid public purpose because the Barton School House is located on City of Redlands Heritage Park property and is an integral component of the City’s design and development of the Park. Heritage Park, including the restored historic school house building, will provide cultural enrichment to the Redlands community and contribute to the City’s goals of enhancing tourism and economic development. Further, the Grove School and the City of Redlands have entered into a joint use of facilities agreement which permits the City to make use of the Barton School House for City-sponsored community events. The City’s funding of the restoration of the school house will permit the City to achieve the benefits accruing to it and the community under the joint use of facilities agreement sooner than if funding for the restoration project was solicited from other sources. As a public comment, Jacob and Justin Marion and Susan Broderick expressed support for a skate park and asked questions as to the proposed location and funding scheme. Bill Cunningham proposed investing the grove sale proceeds and expending only the return from those investments. On motion of Councilmember Harrison seconded by Mayor Pro Tem Foster, the City Council unanimously approved the following priorities for expenditure of the Public Benefit Resource Funds that resulted from the sale of the Nevada-Palmetto Grove:

1. Prioritize the parks and recreation projects identified by the Council Subcommittee for funding consideration up to $3,366,795.00 for this funding category.    b. Match can be in the form if city funding commitment included in a competitive grant application; or,
   c. Match can be in the form of city funding commitment to a joint project between a local non-profit and the city. The non-city match can be in the form of in-kind services and or private/non-profit funds. City staff will develop criteria for evaluating funding requests and making recommendations to the city council.

3. WITHIN the Reserved funds, for a period of 36 months (September 18, 2013 to September 17, 2016) set aside $200,000 as matching funds for design and construction of a skate park. These funds will be released to the overall matching funds pool in the event that the skate park is not shovel ready and approved at the end of the 36 months.

1. Prioritize the trail projects identified by the Council Subcommittee for funding consideration.

2. Use all funds in this category, including any accrued interest, as matching funds for competitive grant applications by the city and/or city funding commitment to a joint project between the city and a local non-profit organization.
