

5 QUANTIFIED OBJECTIVES, HOUSING GOALS, POLICIES, AND PROGRAMS

The goals, policies, and programs delineated in this chapter serve to support the State of California’s overarching aim of providing “decent housing and a suitable living environment for every Californian...is a priority of the highest order” (Government Code Section 65580). This Housing Element updates the prior list of programs by removing those that no longer serve the mission of providing housing for all, and includes new programs aimed at implementing meaningful and impactful change. Specifically, several of these new policies are tailored to the Transit Villages Specific Plan (TVSP) that the City is currently developing.

According to Government Code Section 65583 (b), local governments’ housing elements are required to establish quantified objectives for the maximum number of housing units which can be constructed, rehabilitated, and conserved over a five-year time frame. The objective for units to be conserved should include a subtotal for the number of at-risk units developed pursuant to Government Code Section 65583 (a)(9)(A).

Table 5-1 presents the Housing Element’s quantified housing objectives pursuant to Government Code Section 65583 (a)(9)(A).

TABLE 5-1: QUANTIFIED OBJECTIVES, 2021-2029

Category	Extremely Low Income	Very Low Income	Low Income	Moderate Income	Above-Moderate Income	Total Objective
New Construction	160	160	320	480	480	1,600
Rehabilitation	20	20	100	0	0	140
Preservation of Units at Risk	30	30	0	0	0	60

Note: Populated figures are estimated averages for each category.

The housing goals, policies, and programs that follow were created for the purpose of meeting the housing needs of the citizens of Redlands throughout the 2021-2029 planning period.

- **Goals** are the results that the City desires to achieve over the housing planning period. They are general expressions of values and aspirational outcomes and as a result, may not be fully attained. The goals are the foundation of the policies and actions to be implemented over the housing planning period.
- **Policies** are specific statements that guide decision-making. Policies serve as the fundamental tenets that support the overarching goal, and are statements of broad direction, philosophy, or standards to be achieved.
- **Programs** are the core of the City’s housing strategy, translating goals and policies into actions. These include ongoing programs, Zoning Ordinance changes, procedural changes, and other

actions that implement the housing policies and help the City achieve its goals. Each program identifies the responsible agency, funding source, time frame for implementation, and specific objectives.
